

THE COLOUR COLLECTION

Durable Colour Finishes

Highly durable laminated films by SKAI® — engineered colour that stays beautiful, inside and out.

DURABLE COLOUR FINISHES

Colour, built to last

+ Highly durable laminated films manufactured by **SKAI®**
+ Patented **SKAI® Cool Color technology** to reduce heat build-up
+ Scratch and chemical resistant
+ Easy to clean
+ Available on the exterior and interior of windows and doors

ADVANCED FOIL TECHNOLOGY

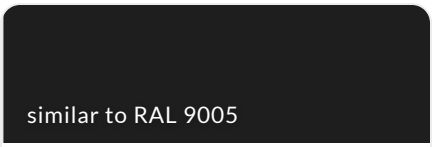

Lasting Colour + Performance

SKAI® foil finishes combine distinctive colours and textures with advanced UV protection and heat-reflective technology. Engineered to resist fading and reduce heat buildup, these durable finishes help maintain their appearance while protecting the dimensional stability and long-term performance of our windows and doors.

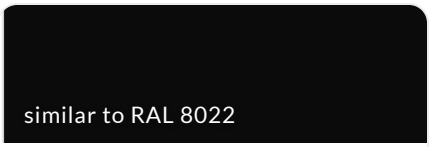

Due to monitor, video card and/or operating system differences, variations in colour may not be accurate and/or surface texture may not be fully revealed. Before making your final selection, please request a free sample of the colour(s) of your choice from your Innotech Product Consultant.

The Finishes

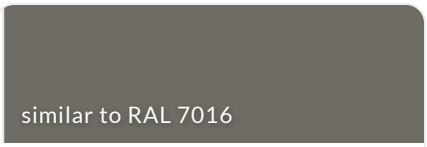

Eleven durable laminated finishes across four families — from matt solids to realistic woodgrains and brushed metals.

WHITE

Due to monitor, video card and/or operating system differences, variations in colour may not be accurate and/or surface texture may not be fully revealed. Before making your final selection, please request a free sample of the colour(s) of your choice from your Innotech Product Consultant.

Coordinated Profile Core

For select dark foil finishes applied to both sides of the profile, the underlying uPVC is produced in a coordinating dark brown or dark grey. The result is a more refined, consistent appearance, with no bright white profile exposed when the window or door is opened.
